

DW DWCP9934 9000 Series Heavy Duty Double Tom/Cymbal Stand with Cymbal Boom Arm

High-performance from DW's 9000 Series!

The DW 9934 double tom/single cymbal stand features heavy-gauge tubing and ball-in-socket 1/2"-diameter tom arms. Plastic tube insulators inside the tubing protect the DW 9934 against rattling issues in close-miking situations, making it a good choice for studio recording. What's more, hinged memory locks for the tube joints and tripod leg assembly help you set up the DW 9934 precisely every time.

DW 9934 Double Tom/Single Cymbal Stand Features:

- Two 1/2"-diameter tom arms and boom cymbal stand
- Plastic tube insulators inside heavy-gauge tubing
- Hinged memory locks on the tube joints and tripod leg assembly
